Indians Host District Leader; Lions of Dublin Friday Night

The Comanche Indians will host the Dublin Lions Friday night at Indian Memorial Stadium in the final home game of the season. Kick-off time is 7:30 o'clock.

Homecoming activities will be held prior to the game. Four girls will be crowned—Homecoming Queen, Football Sweetheart, Band Sweetheart, and FFA Sweetheart. The ceremonies will start around 7:10.

The Indians have dropped eight straight games this season, and hope to get back to winning ways by upsetting the league leading Dublin Lions.

The scrappy Lions have a 7-1 season record—losing only to undefeated Goldthwaite in the final minutes of play 18-12. Last week Dublin ran wild over the De Leon Bearcats 50-2.

The Lions are led by "Mr. Do-Everything" John Turney, hard-running 160 pounder.

The Indians, who are trying to break an all-time Comanche High School losing streak, are still plagued by injuries. John Cunningham, senior starting tackle, was injured in practice and will be out of the Dublin game. Skipper Shumpes, Comanche's All-District candidate for center, suffered a severely cut right thumb Saturday while working, but may see limited action.

Donald Fiest, regular quarterback for the Indians, and Jerry Foreman, last year's all-district fullback, are both still hobbling from leg injuries.

If Shumpes is able to play, he likely will be moved to a tackle post, and Tackle Charles Wright will fill the center slot.

However, the Indians have been hard at work this week—and are gunning for the big upset.

Against Common Foes

Dublin, the only 8-AA team with a perfect district record, is favored to go through and annex the 8-AA title.

Against common foes this season, the Indians have lost to Goldthwaite 40-0, to Granbury 42-26, and to Hamilton 32-18.

Dublin dropped an early 18-12 decision to Goldthwaite, defeated Hamilton 34-0, and beat Granbury 40-12.

So comparative scores heavily favor the visitors, but oftimes this means but little when the Indians and Lions tangle.

County Tax Collections Up

Advalorem tax collection during October in the Comanche County Tax Office was up $52,286 over October, 1962, reports John Beaty, Jr., County Tax Assessor-Collector.

The amount collected in October this year was $152,646.61 as compared to $99,359.90 during October, 1962.

Part of the gain in collection this October was due to the fact that the Comanche Independent School District taxes are now being collected in the County Tax Office, whereas they were collected last year in a special office operated by Castle Ellis.

All school districts of Comanche County now have their taxes collected at the County Tax Office. Total amount collected for all school districts of the county during October this year was $79,662.07.

Believe it or not, we saw our first ice of the season Saturday morning, November 2, when we went out into the yard about daybreak and observed a small cube of ice handing from a hydrant on the north side of the house.

• •

We remember on about this same date some 25 years ago attending a football game between Comanche and Stephenville high schools on the old Tarleton field near the college and it sleeted or snowed all the game.

—o—

TCU has announced an increase in tuition of about $150 per school year, beginning with next session.

• •

The day when a boy or girl without funds can work their way through college is almost a thing of the past.

• •

The University of Texas school catalogue of 1906 advertised the cost of attending The University for the regular 9-months session $180 and up, plus board and room which could usually be arranged for at a cost of $12 to $20 per month.

—o—

Saturday, November 9, is election day in Texas, when a special election will be held to pass on four proposed amendments to our State Constitution.

• •

There is an old saying, "Vote as you please, but please vote." We doubt the wisdom of this, however. If you do not know what the amendments stand for, you might vote vote against the best interest of the State.

• •

It is like telling a driver of a run-away auto to step on the brakes, but in his ignorance he stepped on the gas and wrecked the car.

• •

On Saturday's election ballot, the first amendment proposal would eliminate the requirement of a poll tax payment in order to vote and the empower the Legislature to provide for the registration of all voters.

• •

The second amendment has to do with old age assistance and aid to the needy blind and the totally disabled persons.

• •

The third proposition on the ballot deals with the retirement funds in political subdivisions in Jefferson County of which Beaumont is the county seat. This proposal would add a new subsection to our constitution providing for retirement, disability and death compensation. It at present would apply only to those political subdivisions of Jefferson County, but it has implications which might effect the remaining parts of the State later.

• •

The fourth and final amendment to be voted on November 9, provides more bonds for the Texas Veterans Land Program, increasing the interest rate and extending the life of the program.

—o—

The exact wording on the ballot for each of the four propositions, follows:

Proposition No. 1—

For or Against: The Amendment of the Constitution of the State of Texas so as to repeal the provision making payment of the poll tax a requirement for voting, and so as to authorize the Legislature to provide for the registration of all voters.

• •

Proposition No. 2—

For or Against: The Constitutional Amendment providing for assistance payments to the (1) needy aged, (2) needy individuals who are permanently and totally disabled, (3) needy blind and (4) needy children; authorizing the legislature to set up residence requirements for eligibility; authorizing the legislature to make appropriations out of state funds for the payment of assistance grants on behalf of such recipients; providing for the acceptance of funds from the Government of the United States for the purpose of paying such assistance grants; providing that the amount expended out of state funds on behalf of the individual recipients shall not exceed the amount that are matchable out of the federal funds, and further providing that the total amount expended per year out of state funds for such assistance payments shall never exceed sixty million dollars.

• •

Proposition No. 3—

For or Against: The addition of subsection (c) to Section 62 of Article XVI of the Constitution to authorize all political subdivisions within Jefferson County, Texas, to establish, after approval of its voters, a Retirement, Disability and Death Compensation Fund, covering all appointive officers and employees of said political subdivisions.

• •

Proposition No. 4—

For or Against: The amendment of Section 49-b of Article III of the Constitution of Texas to increase the Veterans Land Fund by $150,000,000; said funds to be used for the purpose of purchasing land in Texas to be sold to the Texas Veterans who served in the armed forces of the United States between September 16, 1940 and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law.

The Cisco Press in its first issue after the Comanche-Cisco game at Cisco, had this to say: "The football game between Comanche and Cisco at Cisco Friday night went off in good shape, but the crowd was not up to par. This was partly due to the small crowd from Comanche that accompanied the Comanche team to Cisco. Comanche, however, has a fine band and the half time program was outstanding, both Comanche and Cisco putting on fine performances."

—o—

Everybody who is informed, knows that the Catholic Church is by far the biggest church, both in the United States and in the Christian World.

—o—

The following interesting information about the number of church members in the United States and the world as to denominations; and also as to what language most of the people of the world speak, was submitted by Rev. John G. Elmer of Cisco to the Editor of The Cisco Press:

Church Numerical Rankings

"A quotation appeared in the Press the other day which reads: 'It may come as a surprise to you, but the Methodist Church has replaced the Baptist Church as the world's largest Protestant religious body.'

• •

"We do not know where the informant procured his information but let's keep the record straight so as not to misinform the public.

• •

"In the United States 28 Baptist Bodies reported a total membership of 21,396,223. 21 Methodist Bodies reported a total membership of 12,632,442. 15 Lutheran Bodies reported a total membership of 8,340,183. 10 Presbyterian Bodies reported a total membership of 4,327,261. These are figures from the 1963 Yearbook of American Churches, by the National Council of the Churches of Christ in the USA.

• •

"To us it appears that there is a difference of almost 9,000,000 between the top two Protestant bodies.

• •

"When the quotation includes the world, there again we must differ. The largest Protestant denomination in the world is the Lutheran Church with an estimated membership of 80,000,000."

World Languages

"Languages used by most people are Mandarin (China), 493,000,000; English, 291,000,000; Russion, 167,000,000; Hindi, 162,000,000; Spanish, 155,000,000 and German 120,000,000. All other languages are used by less than 100,000,000."

H. R. (Bud) Ekins, 62, editor and publisher of The Schednectady (New York) Union-Star, died October 16 of a heart attack in his office in Schednectady.

• •

Mr. Ekins, a nationally and internationally known newspaperman and writer, was editor and publisher of The Goldthwaite (Texas) Eagle for two years from 1950 to 1952. Mr. Ekins quit a high paying job to come to neighboring Goldthwaite to try his hand at running a country newspaper just for the experience.

• •

He frequently visited The Chief office during his two years in Goldthwaite, and other newspapers of this section "just to get the feel of how it was to be a country editor for awhile". He was a most interesting man.

• •

Mr. Ekins was a foreign and domestic correspondent for the former United Press for about 18 years. Five weeks after he went to Rome in 1939, he was ordered out of Italy because of his scoop about Mussolini suffering a heart attack.

• •

The Goldthwaite Eagle, always a good county seat weekly, drew special attention during the two years it was operated by Mr. Ekins.

When Granbury defeated Cisco last week in football that left Dublin as the only undefeated football team in the district and a strong favorite to take the title. Dublin beat Granbury the week before by a score of 42 to 12.

If Comanche is to win a football game this season it will have to be against Dublin Lions here Friday night, or against the Bearcats at De Leon on Friday night of next week.

The Indians are getting better every week and they may come up with a big surprise Friday night in the act of a "Giant Killer."

Grady Howell, well known citizen and farmer of the Proctor community, who formerly served as Commissioner of Precinct No. 3, took suddenly ill at his home October and was taken to a Dublin hospital where he died the same day.

Education is a continuous progress and to be an educated person, a man must keep up with the times. He must be well read and must have traveled extensively. Book learning and a college education are not sufficiniet within themselves.

• •

Hugh Wolfe, whose mother, Mrs. Ross Wolfe, frequently visits in Comanche, is one of Stephenville's better educated men, and that is saying a good deal, as Stephenville, the home of Tarleton State College, has long been noted for its educated men and women.

• •

Back years ago when Tarleton was a struggling junior college with no State aid, there was another institution in that town known as McIlhaney Academy which helped in the advancement of education and culture in Stephenville.

• •

Wolfe, a former University of Texas and New York Giant football player, and now a Stephenville industrialist and head of the famous Wolfe Nursery, recently made a speech at the Stephenville Kiwanis Club banquet, telling about an unusual world tour which he and his wife took, lasting 33 days, according to the Stephenville paper.

• •

On the trip, according to the Stephenville Empire-Tribune, Mr. and Mrs. Wolfe sought to learn something about the governments of the countries they visited, and how government control effected economic conditions.

• •

Their first stop was in Japan, which Wolfe described as "A very progressive nation where love of country and industry was evident. There is practically no unemployment in the country, everyone, it seems has a job."

• •

Other stops on the Wolfes trip were made in Hong Kong, Biet Nam, India, The Holy Land, Greece, Italy, Switzerland, France and England.

• •

Some of the foreign aid being sent to these countries, Wolfe said, is never known to the little man as coming from the United States.

• •

Wolfe was also critical of some of the projects which were completed under foreign aid.

• •

Another observation made by Wolfe was the bad news that was received in the countries about America. However, he added, the people were so busy just trying to exist and find enough to eat and wear, and stay alive, that they pay but little attention to the news.

• •

Wolfe told the Kiwanis that a trip around the world gives one a little more pride in his home country.

• •

Wolfe said that he was thankful that we have surpluses of corn and wheat, and for the many other blessings that we have in the good old U.S.A.

As It Looks From Here

OMAR BURLESON, Member Congress, 17th District, Texas.

WASHINGTON, D. C. — "Operation Big Lift," in which Texas, and particularly Dyess Air Force Base and Fort Hood have a major part, is to prove our ability to exercise a military strength on short notice anywhere in the world. It places troops and equipment in Western Europe in a matter of hours, ready for combat.

At the same time, in other policies and practice, we continue to heavily subsidize a Merchant Marine, under the concept that ships will be used to move this same military strength as they did in World Wars I and II. Whether the sale of wheat to the Soviet Union is right or wrong, the deal will be delayed or made impossible by a requirement that American ships be utilized in the process. It will cost approximately $10 a ton between the cost of shipping in American ships and foreign ships, which adds 25c to 35c per bushel to the cos tof wheat. It adds up to a sensational figure when you add this to the cost of the subsidy for ship construction and operation.

In debate on the Tax Reduction Bill recently passed by the House of Representatives, Congressman Wilbur Mills of Arkansas, Chairman of the Ways and Means Committee, said there are two roads that Government can follow towards a larger and more prosperous economy. It is either a reduction in the tax load or increased Government spending. Mr. Mills said in his speech for the Tax Bill, "A tax reduction gets us to a higher level of economic activity with a larger and larger share of that enlarged activity initiating in the private sector of the economy." When we choose the road of greater government spending to keep the bloodstream of our economy moving, we invite greater deficits, more controls and Government interference.

As an example of increased Government spending, which is almost sure to come unless there is tax reduction, is an increase of almost a half billion dollars for so-called Area Redevelopment, and another authorization in the present Accelerated Public Works Program, carrying a price tag of $900 million. This legislation is now pending before the Congress.

The United States Supreme Court is in its second week of a new session. One of the first actions of the Court was to refuse to review an appeal of two death sentences for rape. In this decision, a dissent was filed by Justices Goldberg, Douglas and Brennan. Their dissent was based on the VIII Amendment to the Constitution, which forbids "cruel and unusual punishment" for crime. The Justices noted that what is "cruel and unusual punishment" changes with the advance of civilization. Mr. Justice Goldberg raised the question as to whether this excessive punishment violates the "evolving standards of decency that mark the progress of our maturing society."

In other words, Justice Goldberg seemingly does not believe that any case of rape, regardless of the heinousness of the crime, deserves punishment by death. Incidentally, in one of the cases before the Court in which the the dissent was filed, the victim was a little nine-year old girl.

If such an act violates or is indicative of the "evolving standards of decency that mark the progress of our maturing society," then we must have matured too much.

Hamilton Downs Indians 32-18

The never-say-die Indians battled back in the third and fourth quarters, but their rally fell short as the Hamilton Bulldogs downed the Comanches 32-18 at Indian Memorial Stadium last Friday night.

After a scoreless first quarter, an intercepted Indian pass on their own 24 yard line set up the first Hamilton touchdown. James Warlick, hard running Bulldog halfback, scored from the 12 for the first tally. Warlick then ran for the 2 points and Hamilton led 8-0.

And at halftime the Bulldogs still led 8-0.

Early in the third quarter, with Warlick and Mike Kornegay carrying the ball, the Bulldogs rolled for their second score with Warlick running for the final 11 yard. Warlick again ran for the bonus points, and Hamilton led 16-0.

The Indians came right back and marched the length of the field, with Jerry Foreman breaking loose for the final 28 yards. A pass try for the extra bonus failed, and the Indians trailed 16-6.

At the first of the fourth quarter, Warlick scored his third touchdown of the night, then ran for the extra points.

Ricky Henry, promising Indian sophomore halfback, broke out through the middle a few plays later for a 73 yard scoring dash. The Indians pass attempt for the extra counter again failed. Early in the fourth quarter the Indians trailed 24-12.

After the kickoff, the Indians defense held the Bulldogs, and forced them to punt. A fumbled punt dimmed the Indians hopes, as Hamilton recovered, then drove for their final tally of the night. Kornegay scored, and Warlick racked up his 26th point of the night by skirting end for another 2-pointer.

The Indians fought back, and Henry scored from the 15 yard line, to end Comanche's scoring. Final score: Hamilton 32, Comanche 18.

Hamilton led in first downs, 20-15.

Skipper Shumpes and Foreman led the Comanche defensive play. Henry played his best game of the season in rolling up over 150 yards rushing. Foreman and Fiest also played well on offense.

IN MEMORY OF MY DARLING HUSBAND, JOHN N. BOYD

It was God's will that you should go,
And leaves me so forlorn
But darling how I miss you
The world will never know
But you knew how I loved you
And that was enough for me
And we soon will be together
Through out all eternity.
And we will sing God's praises
On that bright and golden shore
And meet our darling loved ones
Who have passed on before
And we will sing Amazing Grace
On how sweet it will sound
That saved a poor wretch like me
Such love can not be found
For when the Lord has saved us
We are saved for ever more
And ther'll be no more sorrow
And no tears shed any more.
So darling I must say adieu
For I can not say goodbye
For I'll be watching for you
When we meet in the sky.

MOST WATER USED IN THE HOME

today is not a help to the homemaker at all. In fact, most of the water used with today's modern appliances is actually fighting the housewife. Today's homemaker has a large investment in water using appliances. . . . She, too, performs operations requiring pure water . . . person grooming, cooking, laundering and general house-cleaning. Use of properly conditioned water results in greater convenience, increased efficiency, longer life for equipment and actual dollar savings. If you will drop us a card today, or better yet, give us a call, we will be glad to discuss your water problems and test your water for you without any obligations. For home or industry, we have equipment for softening, filtration, iron removal and chlorination. We install and maintain our units.

Mullin Edges Gutine In 6-Man Thriller

by JOE BELL WHITE

Gustine was beaten by Mullin only four points Halloween night, Oct. 31, in a crucial six-man district football game. This was after many hard-hitting blocks and tackles from both teams. The final score, 32-28.

Mullin's starting line-up was John Reeves and Joe Armendorez as halfbacks, Ronald Calder as quarter, Tommy Ethridge and Richard Phillips, playing ends, and Jimmy Hicks, center.

Gustine's lineup was Jerry Williams, Terry Sparkman and Royce Westfall in the backfield, and Paul McKee, Pete McDougal, and Wade Luper on the line.

Reeves made all five Mullin touchdowns and kicked the extra points.

Westfall and Sparkman made one TD each, and Williams made two for Gustine. Williams also kicked both two-point conversions for Gustine.

While Gustine's backfield players made all the scores, they had many good blocks from the linemen. Gustine's defensive team also made many good tackles.

Gustine Coach Ellis said he though all the Tigers turned in their best game of the season against Mullin.

For outstanding success in telling the U.S. Savings Bond story, the United States Treasury Department is pleased to award this special citation:

UNITED STATES TREASURY DEPARTMENT

CITATION

Awarded to

Comanche Chief

In recognition of patriotic service in strengthening the Nation and its citizens through the United States Savings Bonds Program.

Douglas Dillon, Secretary of the Treasury

Ed Gossett, Chairman

For years, this great Texas newspaper has given your government free space in which to advertise U.S. Savings Bonds. You have seen the ads. Lately, their message has been *Keep Freedom in Your Future with U.S. Savings Bonds.* These ads have sold an impressive number of bonds in Texas. And they have helped, and are now helping, your government defend freedom at a moment in history when freedom urgently needs defending.

"Comanche Chief has earned the gratitude of the people of Texas," says Ed Gossett, Chairman of the Texas Savings Bonds Committee.

"When you buy U.S. Savings Bonds, you serve well the cause of liberty. You enable your country to build up her defenses without doing damage to her economy. The space occupied by the ads that pointed out these important truths was *donated* to your government—and that means to you—by this and other great Texas newspapers. We are grateful, and we think you will be too."

NEWS DIGEST

by M. AUTRY, Rt. 1, Dublin

A reoccurrence of one of Nature's mysteries was in progress last week in Sweden in the Jaemtland area. Millions of lemmings—10-inch long rodents—were on their way to drown themselves in the sea. This phenomenon occurs periodically, the last migration being 24 years ago. Biologists think this sea pilgrimage is the animals' method of keeping their numbers in alance with Nature's plans. But just what determines which animal will go to its death and which stays at home, no man knows.

* *

Almost hidden on an inside page of one of the big Texas daily papers last week was a news item that deserved more prominence. It was reported that a new type Polaris long-range missile was fired from a submerged submarine off Cape Canaveral and performed perfectly on its 2300-mile course over the Atlantic. This new Polaris shortens the time when all land areas of the world will be in range of the Polaris fleet. A significant item indeed for the free world.

* *

Another news item last week, of more personal interest, appeared on front pages. It was reported that bald heads can now be covered by transplants from other head areas where hair is growing. It's reported too, that tendency toward baldness is strictly an inherited characteristic and is transmitted through the microscopic genes. Transplanting surgeons may soon be working overtime to thwart the sneaky work of the genes—the little rascals.

* *

In far away Sydney, Australia a few days ago a tragedy occured which seemed somehow to harmonize with the circumstances surround it. A 64-year-old jockey —who had ridden more than 1,000 winners during his fifty years as a jockey—was killed in a fall from the horse he was exercising. An odd finish to his 64-year-old race with life but perhaps one the man would have chosen if the choosing had been his.

* *

With the passing last week of Texas' former Senator Tom Connally, 86, in Washington, the nation lost a man who looked, acted and performed like a real statesman while he served his country. Many of our present day lawmakers would do well to emulate his record—or try to. As all men, Senator Connally was subject to err, but to his everlasting credit his goal was always the best interest of his country.

* *

In addition to her beauty, a blue-eyed blond, 25, at St. Thomas' Magens Bay, recently proved she was also a heroine. Her boy friend, swimming 100 feet from shore, suddenly screamed for help. Although the 100-pound girl saw a killer shark's fin near him she swam to his side. The water was red with blood from the man's severed arm, mangled hip and shredded legs but, with the help of a late comer, she towed him to shore—the blood-hungry shark following. The man had died on the way but she earned the medal she was given. Foolhardy or rash? Maybe—but she loved the man and raw courage prevailed.

South Vietnam's talkative but tactless Mme. Nhu, who has criticized this country on just about all scores while a guest here is, at this writing, pondering her future place of abode. Not being First Lady of Vietnam since the downfall of her family's government last week, a safe sanctuary may be as hard to find as American sympathy. A guest who is critical of the host's every action isn't popular to say the least. To say the most wouldn't be cricket.

Land—almost any kind, anywhere, if it's farmable—is still one of the best investments on earth. Authorities, in position to know, say land prices are 6% higher in this country than a year ago. This helps emphasize the fact that love fo rthe soil is still a dominant characteristic of Americans. The feeling, and desire for a bit of the earth is very understandable and as long as this yearning exists the nation will somehow survive the onslaughts of wars and faulty leaderships of all political brands.

* *

No one knows just what the outcome of last week's South Vietnam coup will be. Since the two top leaders were reported dead by their own hands or by victorious insurgents, the eventual status of this strife-torn little Asian nation is very much in doubt. However the U. S. now has reason to expect more cooperation from the new regime in trying to hold back the communism that seems determined to engulf the counry. Certatnly this nation has a right to expect something in return for the loss of American lives and the $500,000,000 a year she has poured into South Vietnam.

FTA Yearbook Dedicated To Faculty

Program Committee of the FTA dedicated its yearbook for 1963-1964 to the faculty.

The book with a red cover carries a sketch of the high school in black, and the white pages with red print carry out the colors of National FTA.

Gail Gleaton, chairman, planned the year's work around the theme, "Education is the keystone in the arch of freedom and success."

NEW CHEVELLE!
BY CHEVROLET

The kind of handling ease you'd expect in a smaller car. Come on down and drive it.

The kind of comfort you'd expect in a large interior. Come on down and sit in it.

Only a car that looks as good as this could come between Chevrolet and Chevy II. Come on down and stare at it.

New Chevelle Malibu Sport Coupe

Now—Chevy spirit in a new kind of car!

We built this one to do more than just stand around looking beautiful. Held its weight down in the 3,000-pound range. Then built four lusty engines—two sixes and two V8's—with output all the way up to 220 horses*!

And if that makes you think this is one frisky car, you've got the right idea.

You've also got a roomy car here. Yet its 115-inch wheelbase keeps it highly maneuverable in traffic and very easy to park.

With its Full Coil suspension, it's got a ride that reminds you of the Jet-smooth kind the way it muffles noise and cushions bumps.

And the fine hand of Body by Fisher craftsmanship shows up beneath this one's suave good looks, too.

Sound good? There's more. Like the fact that Chevelle comes in three series with eleven models—convertibles, sport coupes, sedans, wagons, even Super Sport models with front bucket seats. Like the fact that (and see if this isn't one of the nicest surprises of all) the new Chevelle comes at an easy-to-take price!

Like to hear more? The listening's wonderful at your Chevrolet dealer's—and so's the driving.

Ruins of the old institution are still visible at the site and is marked by a monument and a restoration of the front entrance of the old college.

* *

The Baylor college were moved from Independence just after the close of the Civil War, the female college being located at Belton and the male college was consolidated with Waco University at Waco under the name Baylor University.

* *

Baylor now has medical colleges at Dallas and Houston, and a dental college at Houston.

—o—

The University of Texas, the largest institution in the South, now has 22,500 students at the Main University in Austin.

* *

It has medical branches at Galveston, Dallas, Houston, and San Antonio.

* *

Part of the University System includes Texas Western University, the former School of Mines at El Paso; Midwestern University of Wichita Falls; and cooperates with the Presbyterian Theological Seminary at Austin, where many University students take courses in Bible.

* *

Plans were first made for the University of Texas when Texas became an Independent Nation in 1836, and several thousand acres of land were set aside for that purpose.

* *

When Texas became a part of the United States in 1845-46, more land was set aside for the University. The institution did not open for students, however until 1873.

—o—

The Farm Bureau of Texas has gone on record as favoring the retention of the poll tax as a qualification for voting.

—o—

The recent burial here of Mrs. Y. W. Holmes, marked the passing of one of Texas' finest women. Her husband, a lawyer and a former member of the Texas Legislature, moved to Comanche with his family in 1919 and the family lived here for nearly 40 years. Mrs. Holmes, a Presbyterian, for many years taught a kindergarten school here, and many of Comanche's adult citizens of today remember her with affection.

* *

Mrs. Holmes' death came just a few weeks after the death of another prominent Presbyterian woman of Comanche, Mrs. D. Charles Clarke. Both did much for the church here during their active years. Mrs. Clarke served as church pianist for over 40 years, during which time her husband was perhaps the most prominent leader of the church. The Clarke's grandson, Richard Slider, is now pastor of a Presbyterian Church in Richmond, Virginia.

—o—

Notice Coon Hunters: A news item from Eastland says the Battle Creek Coon Hunting Club will sponsor a U.K.C. Licensed Wild Coon Hunt and Bench Show at the Sheriff's Posse Barn in Eastland on Saturday, November 9, beginning at 1 p.m. with the bench show starting at 2. Six trophies will be awarded.

* *

We have not heard much about coon hunting in Comanche County the last few years, but it used to be an important event in Comanche and the Dublin areas.

—o—

The Flower Show at the Comanche Garden Club Center last Saturday was very beautiful with many attractive entries. The Comanche Garden Club is a live organization and whatever these women attempt to do, they always do well. All Comanche should be proud of their new club home.

—o—

We have just learned that Mrs. Jim Ellis has been added to the faculty of the Comanche School System. Mrs. Ellis, Phyllis, is one of Comanche's most talented young women and she will be an asset to the school. Whatever she undertakes to do at home, in social affairs, or in school or church, she always puts forth her best efforts.

—o—

Comanche not only has a good school system, but has a good kindergarten under the able management of Mrs. Bill (Wanza) Parks. Perhaps the best test of the quality of any school, is what its pupils think of it. We hear nothing but good reports from Mrs. Parks' kindergarten. Her annual graduation program each spring is inspiring.

—o—

The death of Mrs. Lzzie O'Dell, Comanche, recently marked the passing of a good woman. We did not know her very well, but we will always remember the affection that her grandson, Odell (Woody) Ormsby held for her. Woody, who has been with The Chief since his elementary school days, lived with his grandmother much of the time when he was growing up.

—o—

Thanksgiving Day, Thursday, November 28, a National Holiday, is just two weeks off. It is a day for feasting and praying. It used to be a popular day nearly everywhere in Texas for football, but not many games are now scheduled for Thanksgiving except what used to be the biggest college game of the year—Texas vs A&M. This year the game will be played at College Station. For a number of years the game has been on TV and we hope it will be again this year.

* *

The following Thanksgiving Prayer was written by Will Curtis:

BE STILL

"But in everything by prayer and supplication with Thanksgiving, let your requests be made known unto God."—Philipians 4:6.

"Heavenly Father
we ask Thy care
Believing in answer
to every prayer
Nor is that answer
long delayed
It always comes
as the prayer is made
Oh, help us know
what we REALLY need
When we ask Thee, Father,
to intercede."

—o—

Picked Up Here and There

Book Agent to Father: "Better buy an enclycopedia now that your son is in school."

Father: "Nothing doing. Let him walk the same as I did."

* *

"God gave man five senses—feeling, seeing, smelling and hearing. The successful man has two more senses—common and horse."

* *

Just about the time a woman thinks her family work is done, she becomes a grandmother.

* *

Train up a child in the way he should go and then you will have a son or daughter to be proud of, but you cannot do that unless you are walking that way yourself.

* *

A cross answer never won a friend.

* *

"I have bought a machine that will do the work of four men," said the boss to his secretary.

"But I had rather have the men," his secretary replied.

Eight missed two games, with Mrs. M. E. Elliott, Rt. 2, Brownwood, winning second place by coming nearest to the score in the Comanche-Hamilton game. More About Martha Chilton

(Continued From Page One)

porter, was a member of the Library Club which she served as vice-president and reporter. She was also a member of the Future Homemakers of America and the Future Teachers Association.

Cum Laude Graduate

Miss Chilton was a 1962 Cum Laude graduate of TCU where she was listed in "Who's Who in American Colleges and Universities." She was a member of Alpha Chi, an honor scholastic fraternity, and was on the Dean's List each year she was in college.

After receiving her bachelor's degree at TCU, Miss Chilton entered the Graduate School and last session was a Texas Christian University physical education instructor.

Martha descended from some of the most sturdy pioneer families of Comanche County. Her grandfather, John Bell Chilton, was a Comanche pioneer merchant and founded the Comanche National Bank which he headed for about 40 years until his death when her father, W. C. Chilton, then became president and headed until a few years ago. He retired to devote his full time to his ranching interests.

Martha's paternal grandmother, Clara Chilton, was the daughter of the late G. A. Beeman, founder of The Comanche Chief.

Martha's maternal grandmother, Mrs. Larry Kittle, a talented woman, was the founder of the first girl's farm club work in Comanche County and was a member of the Montgomery family, who did much for the development of the farming and ranching and oil business of West Texas.

Stricken With Illness

A few months ago Miss Chilton was stricken with a disease that could not be properly diagnosed by even the best doctors and hospitals, and she obtained a leave of absence for this term from her teaching duties at TCU. At the time of her death she was attending night classes at TCU for the first three evenings of the week.

Undergoes Surgery

Miss Lillian Durham underwent surgery last Tuesday morning in All Saints Hospital, Fort Worth. Members of her family report that she is doing fairly well.

Home From Wisconsin

Mr. and Mrs. Ted Durham returned home this week after attending the golden wedding celebration of Mrs. Durham's parents in Wisconsin.

Miss Brightman Hosts Study Club

The Comanche Study Club met Thursday afternoon, October 24, at the home of Miss Hattie Brightman with Mrs. Oswell Brightman as co-hostess. Theme of the program was "Our Southern Neighbors."

Each member present answered the roll call with the name of a Latin American in the News. Pan-American Day was discussed with Mrs. Euell Arthur speaking on Colombia, Mrs. J. A. Barton on Peru, and Miss Ollie Sloan on Chile.

Sour cream pie, apricot rolls, cheese balls, olives and coffee was served to two guests—Mrs. Earl Stewart of Blanket and Mrs. O. O. Brightman, and the following club members: Misses Sloan and Berta Goodson, and Mesdames Arthur, Barton, John Burton, Porter Franks, Paul Jeanes, C. C. Klingman, F. L. Little, Porter McCarroll, Homer Palmer, John Pogue, and John Reese.

When well-meaning friends (who had the "same thing") hand you "medical" advice, let it go in one ear and out the other. Remember: the best-meant "amateur prescribing" of this sort can do serious health harm. The only person qualified to prescribe for you is your doctor. See him promptly when you need to — then do as our Pharmacist does with every prescription placed in his hands: Follow the Doctor's orders to the letter!
